

Subtraction in tens and units! (-)

Step 1: Subtraction

$$\begin{array}{r} 84 \\ - 47 \\ \hline \end{array}$$

40 7 (Remember you can explode this number to make it easier.)

84

(Biggest number here.)

Step 2: Subtraction

$$\begin{array}{r} 84 \\ - 47 \\ \hline \end{array} =$$

44 54 64 74 84

-10 -10 -10 -10

(Begin to take away the tens.)

Step 3: Subtraction

$$\begin{array}{r} 84 \\ - 47 \\ \hline \end{array} =$$

40 7

37 39 44 54 64 74 84

-2 -5 -10 -10 -10 -10

(Now take away your units. Remember you can do this in more than one jump.)

Step 4: Subtraction

$$\begin{array}{r} 84 \\ - 47 \\ \hline \end{array} = 37$$

40 7

37 39 44 54 64 74 84

-2 -5 -10 -10 -10 -10

(Then fill in the answer next to the question.)

(Now you must count what is inside the jumps.)

Subtraction in tens and units! (-)
