- Small basketballs x15
- Foam tennis balls and low compression balls
- South Gloucestershire PE Association Membership
- Enrichment day through South Gloucestershire PE
- Masterclasses – curriculum enrichment
- (dance)

	Expenditure	Impact	Improvements
CSET Sports Partnership	£2,702	<p>Children will be given a wide range of opportunities to take part in level 1 and 2 sports competitions. The target is to get at least one team to the level 3 games at Bath.</p> <p>Staff will be given a range of opportunities to receive professional development in a wide variety of sporting and outdoor activities.</p> <p>Sports crew will have opportunities to train and be coached to be sports leader as part of the school mark games awards.</p> <p>Staff from the grange will be utilised for up to 10 hours of training with staff or organising events/competitions.</p> <p>Expertise, advice and resources will be provided through The Grange partnership.</p>	<p>Children from years 2 to 6 have competed in a variety of sports through the CSET sports partnership, such as gymnastics, tennis, golf and archery with great pride. The tennis team reached the level 3 stage of the competition and had the opportunity to compete at the University of Bath as a result.</p>
Play Leader – playtime/lunchtime	£2,451	<p>Children always have an adult option to play with during playtimes/lunchtimes and funding this means they will continue to do so. The play leader has trained play buddies to facilitate activities led by the buddies.</p>	<p>Having the play leaders has given children a recognisable focal point to go to, to be able to play with others. Consequently, no children are left on their own with no one to play with. It has also allowed children to play new, structured games and provided more of a purpose to play times.</p>

Netball lines	£360	<p>The re-spraying of one of the netball court lines, which has significantly faded will allow for KS1 to use them for their morning runs. It will also provide clearly marked zones for drills/activities to be set up during PE lessons and after school clubs.</p>	<p>A netball club has run for key stage 2 this year. The lines have provided them with the opportunity for structured practices, as well as match practice. As a result, they were able to compete in a tournament at the Grange through CSET.</p> <p>As well as this, the lines have been used to mark areas for structured games such as Hockey in other PE lessons.</p> <p>Key stage 1 still use these lines to do daily runs on. Lines on both of the courts have now been re-sprayed.</p>
Small basketballs x15	£75	<p>Children will be able to use more suitably sized basketballs during PE lessons and in after school clubs. The smaller sized balls will be particularly beneficial in allowing KS1 children to develop their hand-eye co-ordination skills better.</p>	<p>Children in KS1 have been able to develop their fine motor skills better as a result of being able to use more suitably sized balls that they can control easier. They have also found shooting into hoops and passing these lighter balls easier, resulting in basketball lessons being more enjoyable for them.</p> <p>These balls have also been used for KS1 basketball club.</p>
Foam tennis balls and low compression balls	£139	<p>These softer balls will allow for better differentiation during tennis lessons. The easier to control foam balls and low compression tennis balls will allow children to control the ball better and develop their</p>	<p>The foam and low compression balls have allowed all children to control the ball better therefore being able to play longer rallies. This has allowed them to develop their technique and range of shots as well as making tennis lessons even more</p>

		hand-eye co-ordination greater.	enjoyable.
South Gloucestershire PE Association Membership	£100	This membership will allow children from Stanbridge to compete against other schools in the following sports: football tag rugby, dance, swimming, cross country, festival of sport and KS1 multi skills.	Children in KS2 have competed in a variety of sports through the South Gloucestershire PE partnership, such as cross country, football and swimming.
Enrichment for children or in school competition day through South Gloucestershire PE	£200	Children will take part in a whole day (5 hours) fitting in as many classes as possible e.g. Archery, Athletics, Dance, Fencing, Key Games Skills / Fundamental movement.	This is to be rolled over into term 1 of the 2017-18 academic year.
Masterclasses – curriculum enrichment (dance)	£3,040	In the expenditure review of 15-16, sports coaches commented how much children have improved at specific sports during the year. They feel they can really target the children because of the size of the groups.  In addition to this, children are really excited about the masterclasses and always look forward to doing them each week.	Children across all year groups have taken part in badminton, golf and tennis masterclasses through the schools sport coaches. Due to the smaller group sizes, children have progressed very well and winning the year 5/6 tennis tournament is a reflection of this. Coaches have been able to individualise learning easier in masterclasses and are able to push the more able children on more. Furthermore, coaches have commented on the reduced disruption/ behaviour issues due to the smaller group sizes.

### Anticipated impact of expenditure
